

Our Philosophy at Maycroft Dental Care Centre

Our aim is good dental health for all and a reduction in the need for treatment. We achieve this by having an emphasis on prevention and by delivering a high standard of care.

We feel strongly that people attending regularly can be confident that they stand the best chance of having healthy mouths.

Children are particularly welcome as we believe that attending from an early age encourages them in good habits that will last them all their lives.

If you are not happy or wish to make a complaint please ask for our complaints procedure from the Practice Manager or alternatively fill in one of our complaints/suggestions forms available at reception.

WELCOME

If you are a new patient we would like to extend a warm welcome to you. We are confident that you will be pleased with the care you receive. We take great pride in the quality of our dentistry and do try hard to make your visits here a pleasant experience.

We are readily available to discuss aspects of your general care or if you have specific concerns about treatment. An e-mail can often be the swiftest route to start the ball rolling.

As members of the community and as a fully independent practice we feel we are able to offer all our patients the full benefit of our experience when making decisions together regarding the best or most cost effective treatment for them at the time.

Please take the trouble to look at our website which gives further information about the practice, treatments, our plans and prices.
